Career Objective

CSE graduate with a strong focus on Artificial Intelligence, Machine Learning, and AI Automation. Skilled in developing AI-powered web applications, automating workflows using n8n, and integrating APIs for intelligent solutions. Proficient in Python, FastAPI, React, and cloud deployment tools, I aim to contribute to innovative AI automation projects by leveraging my technical, analytical, and problem-solving skills to deliver efficient and scalable solutions.

Skills

Languages	Python, JavaScript (ES6+), Java, C, SQL, HTML5, CSS3
Automation	n8n, Zapier, Make.com, API Integration
Frontend	React Tailwind CSS, Firebase
Backend	Node.js, Express, FastAPI, RESTful APIs
Databases	PostgreSQL, MongoDB, MySQL, Firebase Firestore
AI / Machine Learning	Deep Learning (CNN, Transformer), NLP, Scikit-learn, TensorFlow, Keras
Cloud / DevOps	Docker, Firebase, Render, Vercel
Tools	Git, GitHub, OpenCV, Pandas, NumPy, Matplotlib, Google Colab
Misc.	Academic research, teaching, training, consultation, LaTeX typesetting and publishing.

Education

2022 – 2026

Green University of Bangladesh, Dhaka, Bangladesh
Bachelor of Science in Computer Science & Engineering, CGPA: 3.72/4.0
Thesis title: *Computer Vision Based Real Time Air Quality Index Estimation From Satellite Image*

Al-Hera Academy School & College, Bera, Pabna
Higher Secondary School Certificate (HSC), GPA: 5.00/5.00
Secondary School Certificate (SSC), GPA: 5.00/5.00
Junior School Certificate (JSC), GPA: 5.00/5.00

Projects

AI Diabetes Prediction SaaS | n8n, FastAPI, Scikit-learn, React, OpenAI API, Streamlit
Developed an AI-powered web app predicting diabetes risk using a FastAPI ML API and React interface, with n8n workflows for AI health suggestions and a 5-prediction/month usage limit.
Live Link: **diabetes-prediction-amber.vercel.app**

Projects (continued)

- **AI Resume Builder SaaS | N8N, ,Gemini API, PDF Generation**
  Developed an AI-powered resume builder that generates professional, ATS-friendly PDF resumes from user input and delivers them via automated email, with free and pro plan feature limits.
  Live Link: **resume-n8n.vercel.app**
- **Messenger & WhatsApp Chatbot | n8n, OpenAI API, Webhooks, Automation**
  Developed an AI messaging bot for Messenger and WhatsApp using n8n, automating customer conversations with AI-driven responses, triggers, and notifications.
  Messenger: Click here **WhatsApp:** +1 555 173 3859

Problem-Solving&

- **LeetCode and HackerRank:** Solved coding challenges on LeetCode and HackerRank to strengthen algorithmic and problem-solving skills.

Awards and Achievements

- **Department Dean's List Award**, Department of Computer Science & Engineering.
- **Department VC's List Award**, Department of Computer Science & Engineering.
- **Junior School Certificate (JSC) Scholarship**, Board of Intermediate and Secondary Education, Rajshahi.

Miscellaneous Experience

StudyWithMoniRuL (YouTube Channel) [Visit Channel]

2024 – Present

- Manage the YouTube channel that shares study materials and tutorials on programming, problem-solving, mathematics, and computer science to help students learn easily.

Mathematics Tutor (Calculus)

2022 – 2024

- Helped junior students understand key calculus topics and improve their problem-solving skills and academic performance.

Technical Documentation & Presentation Design (LaTeX)

2024 – Present

- Designed structured academic reports, IEEE-style papers, project documentation, and presentation slides using LaTeX with proper formatting, referencing, and graphical elements.
